

Course Description:

This course is designed to introduce you to the foundational concepts and tools of web design, helping you build a strong skillset in designing websites that are visually appealing, responsive, and optimized for user experience. From understanding the basics of HTML and CSS to crafting dynamic, interactive elements, you'll gain practical skills to bring your creative ideas to life online.

Throughout the course, you'll work on hands-on projects that reinforce essential skills and prepare you to design and build fully functional websites. By the end, you'll be equipped with a portfolio-ready project and the confidence to take on real-world web design challenges.

Duration:
8 Weeks

Course Level:
**Beginner to
Intermediate**

Delivery Mode:
**Online, Self-Paced with
Weekly Interactive Labs**

Course Highlights:

- **HTML & CSS Basics:** Learn to create the structure and styling for websites, understanding elements, tags, and CSS styling techniques.
- **Responsive Design:** Explore responsive design principles to ensure websites look great on any device, from desktops to smartphones.
- **Typography and Color Theory:** Master fundamental design principles like typography, color selection, and layout to create visually appealing sites.
- **Adding Interactivity with JavaScript:** Add dynamic elements to your pages, enhancing user engagement with basic JavaScript functions.
- **Designing with User Experience (UX) in Mind:** Learn how to structure and design websites that are easy to navigate and user-friendly.
- **Introduction to Web Design Tools:** Get an introduction to popular web design tools like Adobe XD, Figma, or similar applications for prototyping and design.

Who Should Enroll:

This course is perfect for beginners in web design, small business owners looking to create their own websites, and anyone interested in learning how to build functional, beautiful websites. No prior experience is necessary.

Certification:

Participants will receive a Certificate of Completion, recognizing their new skills in web design and their readiness to tackle personal or professional web projects.
